SCALEHOUSE
AI SOLUTIONS

For MGAs and programs.

Here's what our latest build runs, every day.

A full underwriting and operations platform for transportation insurance, built by insurance operators. Every step is documented in your system, and all of it is live today.

UNDERWRITING

DOT, authority and CSA on any carrier

Liability, physical damage and cargo indications

Any prospect looked up by DOT

INTAKE

Email classified, extracted and filed

Loss runs extracted and tied out

MVRs matched to the right drivers

ADDRESSES

Every address verified and typed

Virtual mailboxes flagged

A street-level look at the site

COMPLIANCE

OFAC at intake, re-screened daily

Driver and maintenance files tracked

Filing deadlines watched

FINANCIAL

Endorsement ledger, money in and out

Premium billed and reconciled

Bordereaux and statements built monthly

EVERY MORNING

A briefing on renewals and deadlines

Safety and claims flagged

Data checked every hour

Yours would be built around your program.
Need your own system? We build those too.
