SCALEHOUSE
AI SOLUTIONS

Be honest.

Is every file audit-ready?

Built by insurance operators. Scalehouse runs your program from submission to bordereau, documents every step, and flags anything uncertain for a person.

The whole file.

UNDER A MINUTE.

Application, drivers, equipment and loss runs. Extracted, checked and documented.

UNDERWRITING FILE	Every decision documented, ready for the carrier or an audit.
CSA	DOT, authority and CSA scores pulled and screened at intake.
OFAC	Every insured screened at intake, with the report on file.
ENDORSEMENTS	Drafted, followed up and invoiced.
PREMIUM	Billed and reconciled to the policy. Nothing slips.
BORDEREAUX	Built at month-end, ready for the carrier.

Running a program that's outgrown its system? We build those too.

Bring *your* numbers.
